1924-01-01 John turned a little to the left, going nearer to the window, where he could gain a better view of the Madonna, which he had heard so often was the most famous picture in the world. He was no technical judge of painting—he was far too young for such knowledge—but he always considered the effect of the whole upon himself, and he was satisfied with that method, feeling perhaps that he gained more from it than if he had been able to tear the master-work to pieces, merely in order to see how Raphael had made it. Note well, John, that this is the Sistine Madonna, began William Anson in his didactic, tutorial tone. Observe the wonderful expression upon the face of the Holy Mother. Look now at the cherubs gazing up into the blue vault, in which the Madonna like an angel is poised. Behold the sublime artist's mastery of every detail. There are those who hold that the Madonna della Sedia at Florence is its equal in beauty and greatness, but I do not agree with them. To me the Sistine Madonna is

always first. Centuries ago, even, its full worth was appreciated. It brought a great price at— The rest of his speech trailed off into nothingness. John had impatiently moved further away, and had deliberately closed his ear also to any dying sounds of oratory that might reach him. He had his own method of seeing the wonders of the Old World. He was interested or he was not. It was to him a state of mind, atmospheric in a way. He liked to breathe it in, and the rattle of a guide or tutor's lecture nearly always broke the spell. Anxious that Mr. Anson should not have any further chance to mar his pleasure he moved yet closer to the great window from which came nearly all the light that fell upon the Sistine Madonna. There he stood almost in the center of the beams and gazed upon the illumined face, which spoke only of peace upon earth and good will. He was moved deeply, although there was no sign of it in his quiet eyes. He did not object to emotion and to its vivid expression in others, but his shy nature, feeling the need of a defensive armor, rejected it for himself. It was a brighter day than the changeful climate of Dresden and the valley of the Elbe usually offered. The sunshine came in a great golden bar through the window and glowed over the wonderful painting which had stood the test of time and the critics. He had liked the good, gray city sitting beside its fine river. It had seemed friendly and kind to him, having in it the quality of home, something almost American in its simplicity and lack of caste. cortile si scorgeva ancora

2014-07-14 The kilns at Morgantina, site of the well-known excavations in central Sicily, are an outstanding example of multiple potters' workshops in use during the late Hellenistic period. In fully documenting these ten kilns, excavated between 1955 and 1963, Ninina Cuomo di Caprio offers both a representative cross-section of the physical setting of ceramic production in this ancient Greek city and evidence for its daily industrial activity. She includes detailed plans and section drawings of each kiln and formulates hypotheses on its operation in light of modern thermodynamics. The text, which is in Italian, is preceded by an English-language summary. Cuomo di Caprio's archaeological study of the kiln structures and their ceramic products is supplemented by such diagnostic tools as thermoluminescence analysis, neutron activation analysis, X-ray diffraction, and optical examination by polarizing microscope. Opening an entirely new window into the everyday working practices of the Morgantina potters, this study demonstrates that they operated at a very sophisticated level: selecting and purifying specific clays, and adding certain materials to manipulate their working and firing characteristics. 2009 The universe may well have begun with an immense act of fragmentation, the big bang, that sent particles flying in all directions to perform spectacular acts of creation and destruction. The fragment, volatile and unpredictable, is not simply the static part of a once-whole thing but itself something in motion. Drawing upon art history, archaeology, literature, numismatics, philosophy, and film, this book explores the significance of the fragment and addresses the powerful drives that have impelled it into the cultural mainstream. 2017-11-16 In this magisterial two-volume book, Pier Luigi Tucci offers a comprehensive examination of one of the key complexes of Ancient Rome, the Temple of Peace. Based on archival research and an architectural survey, his research sheds new light on the medieval, Renaissance, and Baroque transformations of the basilica, and the later restorations of the complex. Volume 1 focuses on the foundation of the complex under Vespasian until its restoration under

Septimius Severus and challenges the accepted views about the ancient building. Volume 2 begins with the remodelling of the library hall and the construction of the rotunda complex, and examines the dedication of the Christian Basilica of SS Cosmas and Damian. Of interest to scholars in a range of topics, *The Temple of Peace in Rome* crosses the boundaries between classics, archaeology, history of architecture, and art history, through Late Antiquity, the Middle Ages, and the early modern period. *Il di sud o da Noi sottoscritti e Prima Per la cavatura delli sud i Trevertini peperini Tufi e marmi quali stavano in opera nella facciata del fianco destro della sud a Chiesa verso il Cortile del Claustro con haverci fatto*

2017-12-02 Since the early 1980s, the novel has been deemed by many Italian women writers to be the most apt vehicle for creating positive images of the future of women. The novel becomes the space for confession, while at the same time allowing

greater expressive freedom. There is no longer one voice for the feminine role and, by creating heroines who are also intellectuals, these authors offer their readers models of alternative versions of self. This study is a partial inventory of the new women's narrative and aims to provide a broad literary framework through which both the general reader and the student can appreciate the characteristics and innovations of contemporary Italian women's fiction. The writers chosen for this study (Ginerva Bompiani, Edith Bruck, Paola Capriolo, Francesca Duranti, Rosetta Loy, Giuliana Morandini, Marta Morazzoni, Anna Maria Ortese, Sandra Petriganni, Fabrizia Ramondino, Elisabetta Rasy and Francesca Sanvitale) have achieved both critical acclaim and public recognition and their texts show the richness of voices, topics and structures in Italian women's writing today. 2018-07-27 Themes, places, characters and voices of Elizabeth Jolley's *Mr Scobie's Riddle* are explored in detail in this monograph, which provides different narratological and translational analyses of the novel, as well as an academic translation into Italian. Considering the challenges and issues posited by a literary work's translation helps to shed light on the original work itself.

In this manner, the translation is to be seen as a further analytical instrument to gain insight into the original novel. The purpose of this work is to obtain a deeper understanding of the complicated microcosm created by Jolley in the nursing home of "St Christopher and St Jude": the typically Australian themes of migration, isolation, place and displacement; the Australian culture-specific elements; the ensemble of curious characters and their entertaining voices. This book strives to preserve the above elements in translation as the expression of something Other, a different culture, and to take Italian readers on a journey to the Australia depicted in Mr Scobie's Riddle so that Jolley's characters' voices can echo in the Italian language. 2013-07-03 Salvatore e suo fratello Damiano sono nati sull'Isola. Sono cresciuti con il padre, un uomo ruvido che ha una piccola officina meccanica e che ogni tanto cede al vecchio vizio dell'alcol. La madre, Salvatore non se la ricorda, se n'è andata quando lui era piccolo, e nessuno gli vuole raccontare nulla di lei. Questi tre uomini sono - nonostante tutto - una famiglia. Intorno a loro ci sono solo mare a perdita d'occhio, un paesaggio brullo che non lascia scampo e un'afa che sembra paralizzare ogni

prospettiva. Una caletta azzurra incastonata tra le rocce è la cornice dei loro momenti di libertà. I due fratelli, ognuno a modo suo, cercano una via per evadere da quell'Isola che pare abitarli come una maledizione, un modo per ammansire la terra selvaggia che li circonda: Salvatore, appena adolescente, li trova in una cascina abbandonata in mezzo ai campi, dove il padre gli ha proibito di andare. Ignorando il divieto, il ragazzino ci si rifugia appena può perché quel luogo è solo suo, e lì tiene nascosto un segreto: un cane randagio con cui sta tentando di fare amicizia. Non sa che quel posto custodisce un altro segreto, molto più oscuro, qualcosa da cui il padre ha sempre cercato di proteggerlo. Una nuova voce della narrativa italiana - aspra e vivida - racconta con sensibilità la storia di due ragazzi che si misurano coi propri nemici, e che ce la mettono tutta per addomesticarli. il cortile sorpassa le cose buttate a casaccio che emergono per met Dopo un giro di ricognizione Mario va in camera di Salvatore per vedere come ha passato la notte Larmadio aperto decine di vestiti sono sparsi per il

2023-12-31 [Italiano]: In un momento così significativo per la storia europea e mondiale, questo volume vuole essere la raccolta di riflessioni scientifiche condotte sui rapporti tra le scelte politiche, le azioni militari e la fisionomia delle città e del paesaggio urbano, sull'evoluzione delle strutture e delle tecniche di difesa, sulla rappresentazione della guerra e dei suoi effetti sull'immagine urbana, sul recupero delle tracce della memoria cittadina. Da una parte il campo delle Digital Humanities apre nuove prospettive per studiare l'immagine della città prima, durante e dopo la guerra, dall'altro le tecnologie digitali impegnano studiosi e ricercatori di varie discipline: in particolare nell'ambito del disegno viene esplorato il ruolo della rappresentazione nella formulazione dei progetti urbani di difesa e nella documentazione degli eventi bellici e delle tracce lasciate dai conflitti, mentre nell'ambito del restauro vengono approfondite le sfide teoriche e pratiche imposte dai danni arrecati dai conflitti ai centri storici, passando in rassegna casi studio, soluzioni e dibattiti relativi alla conservazione del patrimonio urbano coinvolto in azioni di guerra, con un'attenzione particolare all'identità e alla memoria collettiva./[English]: At such a significant moment in European and world history, this volume aims to be a collection of

scientific reflections about the relationships between political choices, military actions and the physiognomy of cities and the urban landscape, about the evolution of defence structures and techniques, about the representation of war and its effects on the urban image, and about the recovery of the traces of city memory. On the one hand the field of Digital Humanities opens up new perspectives to study the image of the city before, during and after the war, on the other hand digital technologies engage academics and researchers from various disciplines: In particular, in the area of drawing, the role of representation in the formulation of urban defence projects and in the documentation of wartime events and the traces left behind by conflicts is explored, while in the area of conservation, the theoretical and practical challenges imposed by the damage caused by conflicts to historic centres are explored, reviewing case studies, solutions and debates relating to the conservation of urban heritage involved in wartime actions, with a focus on identity and collective memory. il giardino il sistema delle scale al secondo cortile a quota pi alta che conduce al grande salone loggia in affaccio alla punta Como 2020a Dopo il tracollo finanziario del III marchese di Treviso nel 1592 non si ebbero

2015-07-24 Examining Bernini's works from 1665 on, from Paris and Rome, this

book demonstrates the wealth of material still to be drawn from close visual and material examination, archival research, and comparative textual analysis. On the whole, this collection deals with Bernini's position as the leading creator of portraits - in oils, marble, monumental architecture, and metaphor - of some of the most powerful political players of his day. These studies speak to the growing distance of Gallic absolutism from the fading dreams of papal hegemony over Europe, and to the complexities of Bernini's role as mouthpiece, obstacle, and flatterer of the Princes of the Papal States.

2014-04-24 Molti vegani spesso lamentano incomprensione, scherno, rabbia e insofferenza da parte della famiglia per la loro scelta etica. Reazioni così ostili e rancorose proprio dalle persone più vicine! Che interesse avrà mai la famiglia ad osteggiare questa profonda e radicata scelta morale? Perché tanta ansia, tanto coinvolgimento, tanta preoccupazione? Perciò mi sono interrogato sul carattere marcatamente ansioso, ostile e rabbioso, della risposta della famiglia alla scelta vegana, un atteggiamento e un comportamento di evidente carattere difensivo. Sempre le stesse reazioni:

l'incomunicabilità più completa, la morte del dialogo. 2003 Studies of the city, and of women's experiences of the city, have focused primarily on modern times, especially as modernism was defined in large part by urban life. Italy, however, has a long history of urban-centered culture, and women have been a vocal part of that culture since the Renaissance. This volume, therefore, looks at the art and literature of both earlier and more modern periods to investigate the meanings of the city for Italian women, the intensely gendered meanings (for both sexes) of those city spaces that excluded women, and the conditions that permitted a limited permeability of gendered boundaries.

Two aspects to the combination of women and city are salient to these investigations. One involves their metaphorical relationship. Urbs, citta, ville -- the words for city tend to be grammatically feminine, and a long tradition of representation associates the city with a woman. Women, especially writers, could exploit, modify, or resist the prevailing uses of such metaphors. The second aspect of connection involves social realities. What was or is the relation of the (female) city with the real women who inhabit it? What kind of site has it provided for women seeking a satisfying life for

themselves? How has art and literature, by men and by women, represented the relationship of female persons or characters to urban spaces? il cor tile e quella terribile impressione aumento Come un imbuto viscido il cortile con la punta verso il cielo e i muri lebbrosi fitti di miserabili balconi gli archi dei terranei neri coi lumi brillanti a cerchio intorno
