2018-04-01 Desde el horizonte se irradia un aura de misterio que ha cautivado a la humanidad desde tiempos inmemorables. Entre el cielo y la tierra se ha contemplado a la distancia la aparente lnea, cuya horizontalidad difusa define y a la vez se

define entre lo superior y lo inferior. Inalcanzable y esquivo, el horizonte ha estimulado la creatividad de la humanidad y ha inspirado sus obras artísticas, sus cosmogonías y sus arquitecturas. El trazo del horizonte indaga sobre la manera en que cinco arquitectos contemporáneos han concebido y representado aquella elusiva "línea". La presencia o la ausencia del trazo del horizonte en los bosquejos arquitectónicos da pistas sobre cómo estos arquitectos abordan, por medio del dibujo, la arquitectura y su relación con el mundo comprendido entre el cielo y la tierra. Este libro también ilustra, con el fin de ampliar el panorama, cómo cinco culturas —repartidas a lo largo y ancho del tiempo y la geografía— han concebido y representado la relación cosmogónica original entre el cielo y la tierra, relación que ha dado forma a su pensamiento, sus costumbres y sus arquitecturas. 2020-02-08 MAD works in forward-looking environments developing futuristic architecture based on a contemporary interpretation of the eastern spirit of nature. All of MAD's projects - from residential complexes or offices to cultural centres - desire to protect a sense of community and orientation toward nature, offering people

the freedom to develop their own experience. Founded in 2004 by Ma Yansong, the office first earned worldwide attention in 2006 by winning an international competition to design a residential tower near Toronto, expected to be completed in the summer of 2012. MAD has been commissioned by clients of all backgrounds, leading to an intriguing combination of diverse project designs. MAD's ongoing projects include two major cultural projects in Harbin: the China Wood Sculpture Museum and Harbin Culture Island, an opera house and cultural center that will retain the original wetlands as an urban park between the old and new city. MAD is led by Ma Yansong, Dang Qun and Yosuke Hayano. They have been awarded the Young Architecture Award from the New York Institute of Architects in 2006 and the 2011 RIBA international fellowship. el trazo de un carácter caligráfico a la producción de una forma arquitectónica hasta el punto de identificar al calígrafo con un arquitecto de signos lingüísticos y al arquitecto con un calígrafo que escribe las formas de la ciudad

2019-10-04 One of the most difficult challenges a music theoretician faces, be it historically, philosophically or in other

aspects, is that of correctly and precisely framing the meaning that music has in a specific moment: deducing the "why" and revealing the secret hidden within. The book Pure and Programme Music in the Romanticism, a rigorous and indispensable study to understand music in the period in which music as an expression of feelings, begins to reach the threshold of the sublime —primarily focusing attention on what pure and programme music represent. Both types of music are instrumental, but the difference between them is that the first one, pure music, exists on its own, and for its own sake, establishing an iron-clad alliance with the form. Programme music is inspired by other forms of artistic expression, especially literature, and is indelibly linked with the content. However, halfway between these two types of music, a new one is born: absolute music. This music is the result from the dialectic established between the pure and programme, exactly in the middle of two opposing philosophies, that of Idealism and that of Materialism. All of this context described in this book is what defines the essence of Romantic music but also what allows us to understand the music of the twentieth century and that of today, because the controversy between pure music and programme music has represented, in the history of western musical thought, the turning point that led to the creation of the Gesamtkunstwerk (Total Work of Art) and the relationship between music and film, for example, as well as other artistic
