2014-01-09 Ever since the Industrial Revolution debate has raged about the sources of the new, sustained western

prosperity. Margaret Jacob here argues persuasively for the critical importance of knowledge in Europe's economic transformation during the period from 1750 to 1850, first in Britain and then in selected parts of northern and western Europe. This is a new history of economic development in which minds, books, lectures and education become central. She shows how, armed with knowledge and know-how and inspired by the desire to get rich, entrepreneurs emerged within an industrial culture wedded to scientific knowledge and technology. She charts how, across a series of industries and nations, innovative engineers and entrepreneurs sought to make sense and a profit out of the world around them. Skilled hands matched minds steeped in the knowledge systems new to the eighteenth century to transform the economic destiny of western Europe. colofon htm accessed September 27 2012 van Berkel K A Van Helden and L C Palm eds A History of Science in the Netherlands Survey Themes and Reference Leiden Brill 1999 van Deursen A T A Great

2012-04-01 This volume brings together ethnographically based anthropological analyses of shifting meanings and representations associated with the foods, ingredients, and cooking practices of marginalized and/or indigenous cultures. Contributors are particularly interested in how these foods intersect with politics, nationhood and governance, identity, authenticity, and conservation. The chapters cover diverse locales, issues, and foods...A conceptual essay on food and social boundaries rounds out the collection. Throughout, the contributors address important questions...(and) provide a thoughtful inquiry into what happens when food and culinary practices are moved from cultural physical margins, and how such movements can be shaped by- and employed in the pursuit of- political, social, and cultural goals. -- Book Jacket. colofon.htm accessed March 15 2009 Van Otterloo Anneke H 1990 Eten en eetlust in Nederland 1840 1990 een historisch sociologische studie Food and Appetite in the Netherlands 1814 1990 A Historical

2017-07-12 Language Contact in Africa and the African Diaspora in the Americas brings together the original research of nineteen leading scholars on language contact and pidgin/creole genesis. In recent decades, increasing attention has been paid to the role of historical, cultural and

demographic factors in language contact situations. John Victor Singler's body of work, a model of what such a research paradigm should look like, strikes a careful balance between sociohistorical and linguistic analysis. The case studies in this volume present investigations into the sociohistorical matrix of language contact and critical insights into the sociolinguistic consequences of language contact within Africa and the African Diaspora. Additionally, they contribute to ongoing debates about pidgin/creole genesis and language contact by examining and comparing analyses and linguistic outcomes of particular sociohistorical and cultural contexts, and considering less-studied factors such as speaker agency and identity in the emergence, nativization, and stabilization of contact varieties. colofon.htm Bakker P 2014 Creolistics Back to square one Journal of Pidgin and Creole Languages 29 1 177 194 doi 10.1075/jpcl.29.1.08bak Bickerton D 1981 Roots of Language Ann Arbor MI Karoma Bickerton D 1984 The

2021-07-28 This book recounts the little-known history of Cornelis Chastelein, a high-ranking official of the Dutch East India Company and the 150-200 slaves he purchased from slave markets around South-East Asia, to work his landed estates in the Batavian (Jakarta) hinterlands. It traces the making and unravelling of his dream to create a self-sustaining Christian community of freed slaves in the midst of a Muslim

stronghold. To this end, on his death on 28 June 1714, he freed most of his slaves, and bequeathed those who had embraced Christianity, his 1244-hectare Depok estate in 'collective ownership.' The book isolates behaviours and events that influenced these Depokkers' lives after Chastelein's death, such as endogamy, religion, war, revolution and diaspora. Its main characters are the missionaries bent on Depokkers' Dutchification, the Japanese invaders who demand obedience to their 'Asia for the Asians' thinking, and the Indonesian Pemuda (freedom fighters), who insist Depokkers throw their weight behind the Independence movement. Enslavement made Depokkers inbetweeners. In the Netherlands, they were considered Indonesian, and the Dutch to whom they thought they belonged painfully excluded them. Following the transfer of sovereignty, the Republic of Indonesia confiscated the rice fields of those that stayed and labelled them Belanda Depok (black Hollanders). The history of the Depokkers is a tale of survival in the face of adversity that takes in the dying embers of the Netherlands East Indies and the birth of Indonesia. html accessed August 18 2018 22 Plancius Petrus b Dranouter West Vlaanderen Southern Netherlands now colofon htm accessed March 27 2020 Desjardins Jeff The Most Valuable Companies of All Time Markets Chart

2015-01-01 A year after the death of James I in 1625, a sensational pamphlet accused the Duke of Buckingham of murdering the king. It was an allegation that would haunt English politics for nearly forty years. In this exhaustively researched new book, two leading scholars of the era, Alastair Bellany and Thomas Cogswell, uncover the untold story of how a secret history of courtly poisoning shaped and reflected the political conflicts that would eventually plunge the British Isles into civil war and revolution. Illuminating many hitherto obscure aspects of early modern political culture, this eagerly anticipated work is both a fascinating story of political intrigue and a major exploration of the forces that destroyed the Stuart monarchy. colofon htm vol I pp 211 263 4 266 5 Voet Golden Compasses I pp 212 317 323 330 1 II pp

2021-05-01 The essays in this anthology represent a cross-section of current scholarship examining the complex interplay between work, in its broadest theoretical conceptualization, and the world cultures in and through which this labor is performed. Although aimed primarily at an academic audience, the included essays, written in English, Spanish, and French, are also accessible to the curious layperson interested in looking at literature, theater, cinema, and philosophy through the lens of world languages and cultures. For more than thirty years, the Southeast Conference for Languages, Literatures and Film (SCFLLF) has been a premier platform for the discussion and dissemination of the latest scholarship in the Humanities, with emphasis on non-English area studies. 2016-05-23 Voting hides a familiar puzzle. Many people take the trouble to vote

even though each voter's prospect of deciding the election is nearly nil. Russians vote even when pervasive electoral fraud virtually eliminates even that slim chance. The right to vote has commonly been won by protesters who risked death or injury even though any one protester could have stayed home without lessening the protest's chance of success. Could people vote or protest because they stop considering their own chances and start to think about an identity shared with others? If what they hear or read affects political identity, a shift in political discourse might not just evoke protests and voting but also make the minority that has imposed the dictator's will suddenly lose heart. During the Soviet Union's final years the cues that set communist discourse apart from standard Russian sharply dwindled. A similar convergence of political discourse with local language has preceded expansion of the right to vote in many states around the globe. Richard D. Anderson, Jr., presents a groundbreaking theory of what language use does to politics. colofon htm Accessed November 26 2012 Devoto Giacomo 1978 The languages of Italy translated by V Louise Katainen Chicago University of Chicago Dillon Sam 2000 Mexicos candidates hold first presidential debate

2010-04-06 *How the West Was Won* contains articles in three main areas of the humanities. It focuses on various aspects of literary imagination, with essays ranging from Petrarch to Voltaire; on the canon, with essays on western history as one of shifting cultural horizons and ideals, and including censorship; and on the Christian Middle Ages, when an interesting combination of religion and culture stimulated the monastic and intellectual experiments of Anselm of Canterbury and Peter Abelard. The volume is held together by the method of persistent

questioning, in the tradition of the western church father and icon of the self Augustine, to discover what the values are that drive the culture of the West: where do they come from and what is their future? 2016-03-11 Personification, or prosopopeia, the rhetorical figure by which something not human is given a human identity or 'face', is readily discernible in early modern texts and images, but the figure's cognitive form and function, its rhetorical and pictorial effects, have rarely elicited sustained scholarly attention. The aim of this volume is to formulate an alternative account of personification, to demonstrate the ingenuity with which this multifaceted device was utilized by late

medieval and early modern authors and artists in Italy, France, England, Scotland, and the Low Countries. Personification is susceptible to an approach that balances semiotic analysis, focusing on meaning effects, and phenomenological analysis, focusing on presence effects produced through bodily performance. This dual approach foregrounds the full scope of prosopopoeic discourse—not just the what, but also the how, not only the signified, but also the signifier. colofon htm Jacobi J Juan Luis Vives De institutione feminae Christianae Eine humanistische Schrift zur Mädchenerziehung für Europa Beitrag zum Themenschwerpunkt Europäische Geschichte Geschlechtergeschichte

2023-02-10 This ground-breaking collection reveals the networks of interrelation between Early Modern England and the Dutch Republic. As people, ideas and goods moved back and forth across the North Sea – or spread further afield in the vanguard of globalisation and empire – Anglo-Dutch relations shaped all aspects of life, with profound implications still relevant today. A diverse range of expert scholars share new research in their discipline, ranging across technology, trade, politics, religion and the arts. Different aspects of this history of competition, alliance, migration and conflict are taken up by each chapter, providing the reader with detailed case studies as well as the broader background and its historical roots. The discussion concerns the theoretical embedding, potential interdisciplinary connections and the methodology of the studies at issue, keeping in mind comparability and generalizability of the findings. It presents general concepts and approaches in the broad domain of Dutch variation linguistics and the main developments in different varieties of Dutch and their offspring abroad. 2011-06-09 In the early modern Low Countries, literary culture functioned on several levels simultaneously: it provided learning, pleasure, and entertainment while also shaping public debate. From a ditty in Dutch sung in the streets to a funeral poem in Latin composed to be read for or by intimate friends, from a play performed for a prince to a comedy written for pupils – literary texts and performances often dealt with highly controversial topics of religion or politics, on a local or national, but also on a supranational scale. This volume sets out to analyse the role and function of literary culture in the formation of early modern public opinion, and proposes ways in which a modern scholar might approach early modern works of literature and other traces of literary culture to explore early modern public opinion making. The cases presented in this volume bring the Dutch and Latin literary cultures of the Low Countries in the focus of international debates on the history of public opinion. html accessed 27 december 2009 Redworth Glyn Of Pimps and Princes Three Unpublished Letters from James I and the Prince of Wales colofon htm and History of Seventeenth Century England Berkeley BIBLIOGRAPHY 307

2020-03-09 This book addresses a general phenomenon in the European languages: verb second. The articles provide a comprehensive survey of synchronic vs. diachronic developments in the Germanic and Romance languages. New theoretical insights into the interaction of the properties of verbal mood and syntactic structure building lead to hypotheses about the mutual influence of these systems. The diachronic change in the syntax together with changes in the inflectional system show the interdependence between the syntactic and the inflectional component. The fact that the subjunctive can license verb second in dependent clauses reveals further dependencies between these subsystems of grammar. Fronting finiteness furthermore constitutes an instance of a main clause phenomenon. Whether assertion or at-issueness are encoded through this grammatical process will be a matter in the debates discussed in the book. Moreover, information structure appears to be directly related to the fronting of other constituents in front of the finite verb. Questions concerning the interrelations between these various subcomponents of the grammatical system are investigated. colofon htm den Besten Hans 1983 On the Interaction of Root Transformations Form and function of verb second an overview 39

2011-10-14 In response to the dominance of Latin as the language of intellectual debate in early modern Europe, regional centers started to develop a new emphasis on vernacular languages and forms of cultural expression. This book shows that the local acts as a mark of distinction in the early modern cultural context. Interdisciplinary in scope, essays examine vernacular strands in the visual arts, architecture and literature from the fourteenth to seventeenth centuries. Contributions focus on change, rather than consistencies, by highlighting the transformative force of the vernacular over time and over different regions, as well as the way the concept of the vernacular itself shifts depending on the historical context.

2017-12-18 This book offers an overview of all facets of musical life in sixteenth-century Venice. It addresses the city's institutions (churches, confraternities, and academies) against the background of public and private occasions of music making. Supported by a generous collection of archival, literary, and iconographical sources, it treats both ceremonial life in the Serenissima and private forms of patronage. The Companion also addresses the dense web of musical activity (from chapel masters and singers to instrumentalists and instrument makers to music printers and theorists) and the rich variety of styles and musical genres (the frottola, the madrigal, motets and masses, instrumental music, polychoral music, Venetian-language polyphony), broadening the geographical perspective beyond the Veneto to Istria and Dalmatia. 2020-05-11 Controversial poetry played a crucial role in dealing with religious, political, and scholarly conflicts from 1400 until 1625. This volume analyses roles and functions of Latin, Italian, Dutch, German, Scots, and Hungarian poetry in specific historical controversies. A media theory of poetical impact is proposed by Franz-Josef Holzngel and Dieuwke van der Poel. Signe Rotter-Broman, Samuel Pakucs Willcockst, and Alasdair A. MacDonald explain how reception strategies can shape cultural and political identities.
