Mary de Chesnay, Donna Sabella

The Quest for the Golden Trout Douglas M. Thompson, 2013-09-22 The angler's dream of fishing pristine waters in unspoiled country for sleek, healthy trout has turned fishing into a form of theater. It is a manufactured experience—much to the detriment of our rivers and streams. Americans' love of trout has reached a level of fervor that borders on the religious. Federal and state agencies, as well as nongovernmental lobbying groups, invest billions of dollars on river restoration projects and fish-stocking programs. Yet, their decisions are based on faulty logic and risk destroying species they are tasked with protecting. River ecosystems are modified with engineered structures to improve fishing, native species that compete with trout are eradicated, and nonnative invasive game fish are indiscriminately introduced, genetically modified, and selectively bred to produce more appealing targets for anglers—including the freakishly contrived golden trout. *The Quest for the Golden Trout* is about looking at our nation's rivers with a more critical eye—and asking more questions about both historic and current practices in fisheries management.

Phytochemicals Toshiki Asao, Md Asaduzzaman, 2018-11-07 *Phytochemicals* provides original research work and reviews on the sources of phytochemicals, and their roles in disease prevention, supplementation, and accumulation in fruits and vegetables. The roles of anthocyanin, flavonoids, carotenoids, and taxol are presented in separate chapters. Antioxidative and free radical scavenging activity of phytochemicals is also discussed. The medicinal properties of *Opuntia*, soybean, sea buckthorn, and gooseberry are presented in a number of chapters. Supplementation of plant extract with phytochemical properties in broiler meals is discussed in one chapter. The final two chapters include the impact of agricultural practices and novel processing technologies on the accumulation of phytochemicals in fruits and vegetables. This book mainly focuses on medicinal plants and the disease-preventing properties of phytochemicals, which will be a useful resource to the reader.

Human Trafficking: A Global Health Emergency Mary de Chesnay, Donna Sabella, 2023-08-30 This book presents various forms of human trafficking, a growing trend in the exploitation of large numbers of people with concurrent public health, socio-cultural, and economic costs to countries burdened with the consequences of the COVID-19 pandemic. Edited

by psychiatric-mental health nurses and an applied anthropologist, this volume covers all forms of human trafficking: sex trafficking, forced labor, forced marriage, baby trafficking, organ trafficking, child marriage, and child soldiers with a global public health and policy focus. As such, it fills a gap in human trafficking knowledge and is built on courses springing up around the United States in multiple disciplines. Medical, mental health, and social work interventions are included as well as information about programs with documented outcomes. Each chapter includes state of the art of knowledge with case studies illustrating specific focal ideas, discussion, questions and exercises in order to help readers retain and reinforce chapter material. This textbook will be useful in the disciplines of nursing, medicine, public health, social work, and policy making, as well as in disciplines in which human trafficking is a current interest, such as law, criminal justice, and education.

An Ocean Blueprint for the 21st Century United States. Commission on Ocean Policy, 2004 Accompanying DVD contains 2 segments: the first shows the developmental process into making the report, the second shows a summary of the findings and recommendations of the report.

Eat to Get Younger Christine Bailey, Lorraine Nicolle, 2014-06-21 You can't escape the ageing process but you can slow it down. By helping you to identify and address the problem areas that are accelerating your rate of ageing, this book reveals how to become more energised, sleep better, get leaner, avoid or delay age-related degenerative conditions typical in your family, and generally look and feel healthier in your 30s, 40s, 50s, 60s and beyond. Written by award-winning nutritionists, the book shows you how to manipulate your diet, supplements and lifestyle to strengthen the very body systems that are essential to extending your healthy years - systems such as inflammation, detoxification, carbohydrate metabolism and the stress response. It includes action plans for specific areas of interest, to help you focus on your own individual goal, whether this is reducing pain, improving your bones and joints, easing the menopause, losing weight, revitalising your skin, or reducing the chronic internal inflammation that is the precursor to most age-related diseases. With over 100 recipes, plus meal plans, lifestyle suggestions and questionnaires for self-assessment, the authors guide you through their easy-to-follow programmes that will help you feel and look rejuvenated, revitalized and youthful.

Acute Cardiac Care Angela M. Kucia, Tom Quinn, 2013-03-18 Acute Cardiac Care provides nurses with a comprehensive understanding of the current practice and principles underlying the care and management of acute cardiac conditions. It addresses the management of acute coronary syndromes (ACS) with an emphasis on evidence-based pharmacological management, cardiac emergencies (cardiac arrest, arrhythmia, acute pulmonary oedema, cardiogenic shock), current diagnostic and interventional modalities for the management of ACS, including risk stratification, and the ethical, political, social and economic factors that impact upon the provision of acute cardiac services in Australia and the UK. Edited by renowned academics and clinicians in the field, this practical text will encourage nurses to think critically about evidence and

management of acute coronary conditions, and provide a guide on how and where to look for up-to-date evidence and guidelines. KEY FEATURES: A comprehensive and practical guide to the current practice and principles underlying the nursing care of acute cardiac conditions Edited by leading authorities in the field with a wealth of experience in acute cardiac care and resuscitation Has an emphasis on evidence-based practice, encouraging nurses to critically think about their practice Contains learning objectives, key points and activities and further reading guidelines
