2008-11-01 This unique historical and genealogical resource draws on the extraordinarily intact legislative, judicial, religious, and personal records of members of the first Maryland legislature. The two-volume set contains profiles of nearly fifteen hundred men who served in the state's legislature in the first 150 years after Maryland's founding. The major public and private aspects of each legislator's career are quickly discernible: family background, marriage, children, social status, religious affiliation, occupation, other offices held, and military service. Many entries include a brief summary of a legislator's stance on public and private issues. A final category, wealth at death, inventories the legislator's estate and notes any significant changes in wealth between first election and death. The two volume set contains profiles of nearly fifteen hundred men who served in the states

2019-04-08 Winner of a 2008 Teachers' Choice Award! Many children, especially those with developmental delays, have trouble understanding or expressing their feelings. This can result in difficulty with anger management. Listing possible responses to situations—and the likely outcome of each one—allows the child to make informed decisions about which responses to choose (e.g., walking away vs. hitting). This book provides a guide for caregivers along with a workbook portion that asks children to identify situations that

trigger their anger, and helps them find appropriate ways to respond. Helpful topics include: • Overview of the Exploring Feelings Program • Introduction to Cognitive Behavior Therapy • The Emotional Toolbox • Social Stories • Research Evidence on the Effectiveness of Exploring Feelings • and more! This book provides a guide for caregivers along with a workbook portion that asks children to identify situations that trigger their anger and helps them find appropriate ways to respond
