2018-10-19 Entrepreneurial journalism has emerged as a 'hot topic' for 21st century journalism, not just in the industry itself, but also in the academic community. This timely

book seeks to make sense of the dramatic transformation of journalism, with a specific focus on what entrepreneurialism means for the world of journalism. The volume brings together leading international scholars to examine critical topics including the ethics underpinning new funding models such as crowdfunding; best practices in entrepreneurial journalism education; the implications of the emergence of a start-up culture; and differing interpretations of what is understood by the term 'entrepreneurialism' in the field of journalism. The collection analyses and discusses the future of journalism from the perspective of entrepreneurial culture drawing on relevant case studies from the United Kingdom, Belgium, France, Spain, Greece, Denmark, Canada, and the United States. 2014 The unexpected encounter of a rubber glove, a green ball, and the head from the classical statue gives rise to one of the most compelling paintings in the history of modernist art: Giorgio de Chirico's Song of Love (1914). This uncanny image exemplifies what de Chirico called 'metaphysical' painting, which creates a disturbing sense of unreality, outside the usual logics of space and time, through the novel depiction of ordinary things. Emily Braun's essay explores the work's enigmatic motifs, showing how their roots range from the ancient culture of the Mediterranean, through the commercial scenarios de Chirico observed in the streets of Paris in the years around World War I, to the work of the avant-garde painters and poets of the time. The Song of Love continues to captivate viewers as de Chirico intended, even a century after it was made. - Back cover. Emily Brauns essay explores the

2013-05-17 In communities throughout precontact Mesoamerica, calendar priests and diviners relied on pictographic almanacs to predict the fate of newborns, to guide people in choosing marriage partners and auspicious wedding dates, to know when to plant and harvest crops, and to be successful in many of life's activities. As the Spanish colonized Mesoamerica in the sixteenth century, they made a determined effort to destroy these books, in which the Aztec and neighboring peoples recorded their understanding of the invisible world of the sacred calendar and the cosmic forces and supernaturals that adhered to time. Today, only a few of these divinatory codices survive. Visually complex, esoteric, and strikingly beautiful, painted books such as the famous Codex Borgia and Codex Borbonicus still serve as portals into the ancient Mexican calendrical systems and the cycles of time and meaning they encode. In this comprehensive study, Elizabeth Hill Boone analyzes the entire extant corpus of Mexican divinatory codices and offers a masterful explanation of the genre as a whole. She introduces the sacred, divinatory calendar and the calendar priests and

diviners who owned and used the books. Boone then explains the graphic vocabulary of the calendar and its prophetic forces and describes the organizing principles that structure the codices. She shows how they form almanacs that either offer general purpose guidance or focus topically on specific aspects of life, such as birth, marriage, agriculture and rain, travel, and the forces of the planet Venus. Boone also tackles two major areas of controversy—the great narrative passage in the Codex Borgia, which she freshly interprets as a cosmic narrative of creation, and the disputed origins of the codices, which, she argues, grew out of a single religious and divinatory system. As the Spanish colonized Mesoamerica in the sixteenth century they made a determined effort to destroy these books in which the Aztec and neighboring peoples recorded their understanding of the invisible world of the sacred calendar and
