2009-11-12 This book examines the

Spanish response, military, economic and social, to the anti-imperial revolutions of Latin America in the early nineteenth century. History has for the most part concentrated on the heroic careers of the great liberators of America: but what did Spaniards themselves think of Simón Bolívar and his fellow revolutionaries? How did they view the events in America? What policies were adopted, what were their effects on Spanish trade and the merchants who conducted it, and what action did Spain take to meet American demands or to suppress them? It is with these and many related questions that this study is concerned. Analysing a broad spectrum of Spanish opinion which reflects the views of politicians, diplomats, merchants, journalists, the military and others, Professor Costeloe explains how Spaniards responded to revolution and how in retrospect, in the aftermath of defeat, they regarded the end of their nation's long role as a major imperial power. This book examines the Spanish response military economic and social to the anti imperial revolutions of Latin America in the early nineteenth century

2009-10-13 #1 New York Times, Wall Street Journal, and USA Today Bestseller! Secrets of the Millionaire Mind reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking Secrets of the Millionaire Mind, T. Harv Eker states: Give me five minutes, and I can predict your financial future for the rest of your life! Eker does this

by identifying your money and success blueprint. We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success. *Secrets of the Millionaire Mind* is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and revise it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen Wealth Files, which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate

wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too! Unfortunately your current money blueprint will tend to stay with you for the rest of your life unless you identify and revise it and that's exactly what you will do with the help of this extraordinary book
