It has been boarded up for decades, but now the new owner has discovered the belongings of Japanese families who were sent to internment camps during World War II. As the owner displays and unfurls a Japanese parasol, Henry, a Chinese American, remembers a young Japanese American girl from his childhood in the 1940s—Keiko Okabe, with whom he forged a bond of friendship and innocent love that transcended the prejudices of their Old World ancestors. After Keiko and her family were evacuated to the internment camps, she and Henry could only hope that their promise to each other would be kept. Now, forty years later, Henry explores the hotel's basement for the Okabe family's belongings and for a long-lost object whose value he cannot even begin to measure. His search will take him on a journey to revisit the sacrifices he has made for family, for love, for country. Endlessly cold, they struggle to survive with poisonous rations, a dwindling coal supply, and ships buckling in the grip of crushing ice. But their real enemy is even more terrifying. There is something out there in the frigid darkness: an unseen

Now, A Breath of Snow and Ashes continues the extraordinary story of 18th-century Scotsman Jamie Fraser and his 20th-century wife, Claire. The year is 1772, and on the eve of the American Revolution, the long fuse of rebellion has already been lit. Men lie dead in the streets of Boston, and in the backwoods of North Carolina, isolated cabins burn in the forest. With chaos brewing, the governor calls upon Jamie Fraser to unite the backcountry and safeguard the colony for King and Crown. But from his wife Jamie knows that three years hence the shot heard round the world will be fired, and the result will be independence — with those loyal to the King either dead or in exile. And there is also the matter of a tiny clipping from The Wilmington Gazette, dated 1776, which reports Jamie’s death, along with his kin. For once, he hopes, his time-

traveling family may be wrong about the future. Eagerly anticipated by her legions of fans this sixth novel in Diana Gabaldon's bestselling Outlander saga is a masterpiece of historical fiction from one of the most popular authors of our time

1972 The conference provided the medium within which the views and recommendations of outstanding authorities among teachers, administrators, and college personnel could be formulated and disseminated to the profession concerning what kinds of schools this nation needs for the education of children from two to adulthood. In the first speech, Richard L. Foster analyzes institutional structures, program and curriculum patterns, teaching methods, and human relationships that militate against the full measure of individual development that should characterize the schools. Milly Cowles pictures the kinds of schooling needed for infants; Charles A. Blackman, for later childhood; Donald H. Eichhorn, for the emerging adolescent; and Mark Shedd, for the adolescent and young adult. Jack R. Frymier puts it all together for a total program of education for tomorrow -- ages two to young adulthood. William M. Alexander discusses ways in which school systems should work with their individual communities to bring about the schools of the future and details the processes that will involve all concerned persons in the

community in the development of the kinds of schools needed now. (Author/EA).

2001 In an increasingly globalised world, economic and cultural imperatives can be seen as two of the most powerful forces shaping human behaviour. This book considers the relationship between economics and culture both as areas of intellectual discourse, and as systems of societal organisation. Adopting a broad definition of culture, it explores the economic dimensions of culture, and the cultural context of economics. The book is built on a foundation of value theory, developing the twin notions of economic and cultural value as underlying principles for integrating the two fields. Ideas of cultural capital and sustainability are discussed, especially as means of analysing the particular problems of cultural heritage, drawing parallels with the treatment of natural capital in ecological economics. The book goes on to discuss the economics of creativity in the production of cultural goods and services; culture in economic development; the cultural industries; and cultural policy. This book considers the relationship between economics and culture both as areas of intellectual discourse and as systems of societal organisation

2017-11-15 Efforts to describe contemporary Jewish American identities often reveal more questions than concrete articulations, more statements about what Jewish Americans are not than what they are. Highlighting the paradoxical phrasings that surface in contemporary writings about Jewish American literature and culture—language that speaks to the elusive difference felt by many Jewish Americans—Aaron Tillman asks how we portray identities and differences that seem to resist concrete definition. Over the course

of *Magical American Jew*, Tillman examines this enigma—the indefinite yet undeniable difference that informs contemporary Jewish American identity—demonstrating how certain writers and filmmakers have deployed magical realist techniques to illustrate the enigmatic difference that Jewish Americans have felt and continue to feel. Similar to the indeterminate nature of Jewish American identity, magical realism is marked by paradox and does not fit easily into any singular category. Often characterized as a mode of literary expression, rather than a genre within literature, magical realism has been the subject of debates about definition, origin, and application. After elucidating the features of the mode, Tillman illustrates how it enables uniquely cogent portrayals of enigmatic elements of difference. Concentrating on a diverse selection of Jewish American short fiction and film—including works by Woody Allen, Sarah Silverman, Cynthia Ozick, Nathan Englander, Steve Stern, and Melvin Jules Bukiet—*Magical American Jew* covers a range of subjects, from archiving Holocaust testimony to satirical Jewish American humor. Shedding light on aspects of media, marginalization, excess, and many other facets of contemporary American society, the study concludes by addressing the ways that the magical realist mode has been and can be used to examine U.S. ethnic literatures more broadly. Analyzing contemporary works of short fiction and film this book highlights the complexities and contradictions of Jewish

American identity and demonstrates how magical realist techniques enable uniquely cogent portrayals of enigmatic
