2006 The site of a great Ancestral Pueblo center in the 11th and 12th centuries AD, the ruins in Chaco Canyon look like a city to some archaeologists, a ceremonial center to others. Chaco and the people who created its monumental great houses, extensive roads, and network of outlying settlements remain an enigma in American archaeology. Two decades after the latest and largest program of field research at Chaco (the National Park Service's Chaco Project from 1971 to 1982) the original researchers and other leading Chaco scholars convened to evaluate what they now know about Chaco in light of new

theories and new data. Those meetings culminated in an advanced seminar at the School of American Research, where the Chaco Project itself was born in 1968. In this capstone volume, the contributors address central archaeological themes, including environment, organization of production, architecture, regional issues, and society and polity. They place Chaco in its time and in its region, considering what came before and after its heyday and its neighbors to the north and south, including Mesoamerica. In this capstone volume the contributors address central archaeological themes including environment organization of production architecture regional issues and society and polity

1988 Covering a period of more than one hundred years of work by renowned folklorists, these enlightening essays explore the timeless tale of Cinderella. In addition to the most famous versions of the story (Basile's Pentamerone, Perrault's Cendrillon, and the Grimm's Aschenputtel), this casebook includes articles on other versions of the tale from Russian, English, Chinese, Greek and French folklore. The volume concludes with several interpretive essays, including a psychoanalytic view from Dundes and a critique of the popularization of Cinderella in America. Folklorists, scholars of children's literature, and feminists should appreciate particularly the wide scope of this collection . . . now in paperback with an updated Bibliographical Addendum. . . . Most helpful are the two-page introductions to each variant and to each essay which include a brief overview of the historical times as well as suggested additional sources for more discussion.-Danny Rochman, Folklore Forum A milestone, a near complete source

of primary and secondary materials. . . . The selected analytical writing include definitive classic and new discoveries, covering the whole range of methodological modes and theoretical perspectives from early forms and typology to myth-ritual, social-historical, anthropological, and psychoanalytical readings. The annotated bibliography is most helpful, illuminating, and comprehensive, encompassing publications in other Western languages and works by Asianists.-Chieko Mulhern, *Asian Folklore Studies* One can imagine several dimensions on which psychoanalysts might find such a collection interesting: as examples of applied psychoanalysis, in relation to philosophical and cultural examination of imaginative material, in relation to child development, and in the correlations between folktales of a particular culture and individual histories.-Kerry Kelly Novick, *Psychoanalytic Quarterly* Covering a period of more than one hundred years of work by renowned folklorists these enlightening essays explore the timeless tale of Cinderella

1993 By comparing Spanish artist Joan Miro's finished paintings and sculptures with more than 1200 of his sketches and preparatory studies, Gimferrer places Miro's art in a surprising new perspective. Marvelously illustrated with 285 radiant color plates and 1276 in black-and-white, this intensive analysis of Miro's creative process

explains how he would first isolate some element from the teeming outside world, then incorporate a graphic sign into it, thus setting in motion a transfigurative process in which objects, signs and symbols underwent a constant metamorphosis. In placing Miro's preliminary drawings alongside the pictures to which they gave rise, Spanish poet and art critic Gimferrer illuminates the inner alchemy by which Miro discovered his major motifs and set them loose in a free-floating pictorial universe. 2018 Considered one of the three greatest painters of sixteenth-century Venice, along with Titian and Veronese, Tintoretto was a bold innovator. His free, expressive brushwork made his work look unfinished to contemporaries but is now recognized as a key step in the development of oil-on-canvas painting. Even today's audiences are astonished by the superhuman scale, painterly dynamism, and visionary qualities of his work. On the 500th anniversary of Tintoretto's birth, this volume provides a comprehensive overview of his career and achievement, with fifteen essays and reproductions of more than 140 paintings--many newly conserved--as well as a selection of his finest drawings. One special contribution is a focus on the artist's portraiture.--Provided by publisher. On the

2016-04-25 This book offers a comprehensive and unitary study of the philosophy of Francis Bacon, with special emphasis on the medical, ethical and political aspects of his thought. It presents an original interpretation focused on the material conditions of nature and human life. In particular, coverage in the book is organized around the unifying theme of Bacon's notion of appetite, which is considered in its natural, ethical, medical and political meanings. The book redefines the notions of experience and experiment in Bacon's philosophy of nature, shows the important presence of Stoic themes in his work as well as provides an original discussion of the relationships between natural magic, prudence and political realism in his philosophy. Bringing together scholarly expertise from the history of philosophy, the history of science and the history of literature, this book presents readers with a rich and diverse contextualization of Bacon's philosophy. This book offers a comprehensive and unitary study of the philosophy of Francis Bacon with special emphasis on the medical ethical and political aspects of his thought

1990 A study of TEFL vocabulary contains an evaluation of the vocabulary encountered in 56 textbooks of English for Swedish secondary schools. The 56 textbooks together make up an electronically stored corpus of 1,437,474 words, which was evaluated from three points of view. were compared with the corresponding frequency band in an 18 million word corpus compiled at the University of Birmingham in the course of the work on the COBUILD dictionary. This comparison reveals clear differences between the two corpora, with the textbooks containing a much higher proportion of concrete everyday words than the COBUILD texts and a lack of many of the common abstract words need for an understanding of the language of the news media. of certain of the linguistic criteria for text typology suggested by D.Biber. With the help of these criteria, it was possible to show that the textbooks tend to be interactive and to have situated content and reported style, while the COBUILD texts seem to be edited, to have abstract content and more immediate style. in terms of the linguistic differences between British and American English. It was found that the linguistic orientation of both corpora is overwhelmingly British. described above, among them a list of the 9330
