2008-11-26 For more than fifty years, Milton Glaser has designed much of the

world we live and experience every day. His posters, books, albums, restaurants, advertisements, and so much more have identified him as the preeminent force in design in America. Now, in *Drawing is Thinking*, Glaser draws upon an amazing vocabulary of images and techniques to create his most personal book to date. In a way, he has not only been drawing all his life, he has been thinking about art and design on that journey. Based on his view that all art has its origin in the impulse to create, he has designed a book that powerfully delineates this position. In *Drawing is Thinking*, the drawings depicted are meant to be experienced sequentially, so that the viewer not only follows Glaser through these pages, but comes to inhabit his mind. The drawings represent a sweeping range of subject matter taken from the full range of a reflective master's career. The pages suggest that drawing is not simply a way to represent reality, but, as the title implies, a better way to perceive the world. The maker and the viewer become more attentive, one by creating the work, the other by experiencing it. Glaser's two signature books, *Graphic Design and Art is Work*, are each in print decades after their first appearances. In different ways, each is a display of his work with extended descriptions of how the work came about, and how design problems were visually resolved. But in *Drawing is Thinking* the author is less interested in display. Glaser this time is concerned with how the mind works in its attempt to create reality.--

2014-02-28 An examination of Lee Lozano's greatest experiment in art and endurance—a major work of art that might not exist at all. The artist Lee Lozano (1930–1999) began her career as a painter; her work rapidly evolved from figuration to abstraction. In the late 1960s, she created a major series of eleven monochromatic Wave paintings, her last in the medium. Despite her achievements as a painter, Lozano is best known for two acts of refusal, both of which she undertook as artworks: *Untitled (General Strike Piece)*, begun in 1969, in which she cut herself off from the commercial art world for a time; and the so-called *Boycott Piece*, which began in 1971 as a month-long experiment intended to improve communication but became a permanent hiatus from speaking to or

directly interacting with women. In this book, Sarah Lehrer-Graiwer examines Lozano's Dropout Piece, the culmination of her practice, her greatest experiment in art and endurance, encompassing all her withdrawals, and ending only with her burial in an unmarked grave. And yet, although Dropout Piece is among Lozano's most important works, it might not exist at all. There is no conventional artwork to be exhibited, no performance event to be documented. Lehrer-Graiwer views Dropout Piece as leveraging the artist's entire practice and embodying her creative intelligence, her radicality, and her intensity. Combining art history, analytical inquiry, and journalistic investigation, Lehrer-Graiwer examines not only Lozano's act of dropping out but also the evolution over time of Dropout Piece in the context of the artist's practice in New York and her subsequent life in Dallas. In this book Sarah Lehrer Graiwer examines Lozano's Dropout Piece the culmination of her practice her greatest experiment in art and endurance encompassing all her withdrawals and ending only with her burial in an unmarked grave

2007-05-15 For fifty years, Andres Yasin has carried a grudge against J.T. Bunker. Now, Bunker, eighty-two years old and dying of cancer, wants to tell his side of a story, a story of his affair with Andres's mother. As a child Andres knew Bunker as the Captain of the Sleepers-so called because he transported the bodies of those who had died off the island, but wished to be buried at home. But what really happened between Bunker and Andres's mother, between his mother and her next lover, a leader in the Puerto Rican Nationalistic Insurrection, and what were the actual circumstances of Andres's mother's mysterious death? In this taut, erotic novel that slips effortlessly

between past and present, remembrance and reality, Mayra Montero describes a feverish Caribbean childhood of secrets, disillusionment, and sexual awakening. Beautifully translated by Edith Grossman, *The Captain of the Sleepers* confirms Montero's stature as one of our finest prose stylists and as an international writer of the first rank. 2012-07-10 Delmira Agustini (1886-1914) has been acclaimed as one of the foremost modernistas and the first major woman poet of twentieth-century Spanish America. Critics and the reading public alike were immediately taken by the originality and power of her verse, especially the aggressively sexualized perspective never before found in texts written by Spanish American women. Agustini sought, like the men around her, to free herself and her writing from traditional sexual limitations. Even more daringly, she responded to their language with her own feminized discourse, developing an innovative way of expressing her sexual and artistic expressions. -- Book jacket. 2000-01-01 Balthus (Balthasar Klossowski de Rola), long considered one of the great figure painters of the twentieth century, has remained one of its most elusive creative spirits. Born into an aristocratic Polish family in 1908, Balthus grew up in the most cosmopolitan and cultivated circles of Geneva, Berlin, and finally Paris, where his artist parents settled in 1924. Attracted at an early age by the restraint and timelessness of the old masters, Balthus studied painting with Pierre Bonnard, Maurice Denis, and Andre Derain. He was also fascinated by the work of the Surrealists, and he began to paint images of young girls in enigmatic settings suffused with an understated eroticism. While his calm, almost architectonic forms are reminiscent of Italian Renaissance art, the strange atmosphere of his paintings conveys a distinctly twentieth-century sensibility. The artist has remained silent on the underlying

meanings of his images, and indeed has spent much of his life avoiding attention. Balthus's work was little recognized until the late 1960s, but his remarkable achievement finally received international acclaim in 1983, when a major retrospective exhibition opened at the Musée National d'Art Moderne-Centre Georges Pompidou, Paris, and traveled to the Metropolitan Museum of Art, New York, and the City Museum, Tokyo. Still, the full extent of his output has not been known: nearly 100 paintings and numerous drawings, sketchbooks, and even sculptures have escaped notice. This monumental, lavishly illustrated volume, the outcome of years of study, reveals a surprisingly extensive oeuvre. An introductory essay by Jean Clair, curator of the landmark 1983 exhibition, defines the sometimes unexpected poetic, literary, and philosophical sources of Balthus's early inspiration. Then follows a full catalogue raisonné of Balthus's work by Virginie Monnier, published here in its original French. The catalogue includes all of the artist's 350 known paintings, nearly 1,000 previously unpublished drawings, and 50 sketch-books -- 2,100 works in all -- which enable us to understand his working methods and document the creation of most of his paintings. Long overdue, this comprehensive publication adds new luster to the reputation of an important and intriguing artist. 2009 On the occasion of the celebrations of the bicentennial anniversary of Chile, and the centennial anniversary of the National Museum of Fine Arts, constructed in 1910 as part of the festivities of the Independence centennial, the MNBA planned a series of exhibitions under the title of Centenario. This beautifully edited recompilation volume comprises the history of the museum MNBA with a descriptive and illustrated catalogue of the 250 most important pieces of its patrimonial collection exhibited in the 7 modules that comprised the program Centenario. Milan Ivelic, director of the MNBA explains: The objective of this publication is to articulate and organize the symbolic imaginaries that are part of the holdings of the Collection of Chilean Art of the MNBA. What this publication is proposing is the organization in a transversal way of the art pieces selected, without following a linear chronology, thus constructing, in a certain way, a new museographic script. The art pieces have been divided into 7 modules based on a broad criteria that respond to their approximation in languages, topic similarities and shared strategic processes for their elaboration, conceptualizing theory and analysis of the artistic practices, without omitting their own historical context--P.20. The contents of the catalogue follow the 7 main topic modules of the exhibitions. Major referential work illustrated with full-page color plates. Milan Ivelic director of the MNBA

2014-06-24 This brilliant blend of history, biography, and criticism explores the seminal figures of twentieth-century French art—Matisse, Picasso, Derain, Léger, Dufy, Braque, Giacometti, Balthus, and

Hélión—and the vital art world in which they thrived. The ten interlocking essays in this important book include radical new evaluations of Derain, Léger, and Dufy, and penetrating studies of the final works of Picasso and Braque. Paris Without End, Jed Perl's first book, is now celebrating its twenty-fifth anniversary and is essential reading for anyone passionate about modern art. Roberta Smith called it "a quiet, cogent tour de force. . . . As one critic's demonstration of what he considers the best in art and the best way to write about it, this book sets a high standard." Hilton Kramer also noted, "Everyone who cares about the art of the twentieth century will find something to disagree with in this book—its many unorthodox judgments are bound to be controversial—but that, in my view, is a mark of the book's importance."
