2003-01-01 Discovered in a hidden compartment of an old chest long after his death, the secret writings of John Dee, one of the leading scientists and occultists of Elizabethan England, record in minute detail his research into the occult. Dee concealed his treatises on the nature of humankind's contact with angelic realms and languages throughout his life, and they were nearly lost forever. In his brief biography of John Dee, Joseph Peterson calls him a true Renaissance man? detailing his work in astronomy, mathematics, navigation, the arts, astrology, and the occult sciences. He was even thought to be the model for Shakespeare's Prospero. All this was preparation for Dee's main achievement: five books, revealed and transcribed between March 1582 and May 1583, bringing to light mysteries and truths that scholars and adepts have been struggling to understand and use ever since. These books detail his system for communicating with the angels, and reveal that the angels were interested in and involved with the exploration and colonization of the New World, and in heralding in a new age or new world order. While Dee's influence was certainly felt in his lifetime, his popularity has grown tremendously since. His system was used and adapted by the Hermetic Order of the Golden Dawn, and subsequently by Aleister

Crowley. This new edition of John Dee's Five Books of Mystery is by far the most accessible and complete published to date. Peterson has translated Latin terms and added copious footnotes, putting the instructions and references into context for the modern reader. 2006-10-10 NATIONAL BESTSELLER • A groundbreaking work of science, history, and archaeology that radically alters our understanding of the Americas before the arrival of Columbus in 1492—from “a remarkably engaging writer” (The New York Times Book Review). Contrary to what so many Americans learn in school, the pre-Columbian Indians were not sparsely settled in a pristine wilderness; rather, there were huge numbers of Indians who actively

molded and influenced the land around them. The astonishing Aztec capital of Tenochtitlan had running water and immaculately clean streets, and was larger than any contemporary European city. Mexican cultures created corn in a specialized breeding process that it has been called man's first feat of genetic engineering. Indeed, Indians were not living lightly on the land but were landscaping and manipulating their world in ways that we are only now beginning to understand. Challenging and surprising, this a transformative new look at a rich and fascinating world we only thought we knew. 2007-08-01 The Book of John Mandeville has tended to be neglected by modern teachers and scholars, yet this intriguing and copious work has much to offer the student of medieval literature, history, and culture. [It] was a contemporary bestseller, providing readers with exotic information about locales from Constantinople to China and about the social and religious practices of peoples such as the Greeks, Muslims, and Brahmins. The Book first appeared in the middle of the fourteenth century and by the next century could be found in an extraordinary range of European languages: not only Latin, French,

German, English, and Italian, but also Czech, Danish, and Irish. Its wide readership is also attested by the two hundred fifty to three hundred medieval manuscripts that still survive today. Chaucer borrowed from it, as did the Gawain-poet in the Middle English *Cleanness*, and its popularity continued long after the Middle Ages. 2015-08-25 "A heart-wrenching, beautiful, darkly comic, deeply necessary tale that stuns again and again with razor-sharp prose and glittering wit. Robert Goolrick is, without question, one of the greatest storytellers of our time." —Téa Obrecht, author of *The Tiger's Wife* In the spellbinding new novel from #1 New York Times bestselling author Robert Goolrick, 1980s Manhattan shimmers like the mirage it was, as money, power, and invincibility seduce a group of young Wall Street turks. Together they reach the pinnacle, achieving the kind of wealth that grants them access to anything--and anyone. Until, one by one, they fall. Goolrick's literary chops are on full display, painting an authentic portrait of a hedonistic era, tense and stylish, perfectly mixing adrenaline and melancholy. Stunning

in its acute observations about great wealth and its absence, and deeply moving in its depiction of the ways in which these men learn to cope with both extremes, it's a true tour de force. "An addictive slice of semiautobiographical fiction . . . Goolrick vividly plumbs the depths of fortune and regret. The result is a compulsively readable examination of the highs and lows of life in the big city." —Publishers Weekly "A compelling, wholly seductive narrative voice . . . Goolrick's stellar prose infuses this redemption story with a good deal of depth and despair, making it read like the literary version of *The Wolf of Wall Street*." —Booklist "A dark, intoxicating morality tale . . . With his impeccable prose, Goolrick focuses his unflinching eye on the grittiness beneath the sleek facade of nightclubs, fashion, and monied Manhattan extravagance. Beautifully crafted, seductive, and provocative." —Garth Stein, author of *A Sudden Light* and *The Art of Racing in the Rain* Goolrick's stellar prose infuses this redemption story with a good deal of depth and despair making it read like the literary version of *The Wolf of Wall Street* Booklist A dark intoxicating morality tale

2019-07 Conceived as a companion volume to the well-received *Simple Forms: Essays on Medieval English Popular Literature* (2015), *Make We Merry More and Less* is a comprehensive anthology of popular medieval literature from the twelfth century onwards. Uniquely, the book is divided by genre, allowing readers to make

connections between texts usually presented individually. This anthology offers a fruitful exploration of the boundary between literary and popular culture, and showcases an impressive breadth of literature, including songs, drama, and ballads. Familiar texts such as the visions of Margery Kempe and the Paston family letters are featured alongside lesser-known works, often oral. This striking diversity extends to the language: the anthology includes Scottish literature and original translations of Latin and French texts. The illuminating introduction offers essential information that will enhance the reader's enjoyment of the chosen texts. Each of the chapters is accompanied by a clear summary explaining the particular delights of the literature selected and the rationale behind the choices made. An invaluable resource to gain an in-depth understanding of the culture of the period, this is essential reading for any student or scholar of medieval English literature, and for anyone interested in folklore or popular material of the time. The book was left unfinished at Gray's death; it is here edited by Jane Bliss. The book was left unfinished at Grays death it is here edited by Jane Bliss

2018-04-10 #1 NEW YORK TIMES BESTSELLER A haunting, beautiful, and necessary book.—Nicola Yoon, #1 New York Times bestselling author of *Everything, Everything* Charlotte Davis is in pieces. At seventeen she's already lost more than most

people do in a lifetime. But she's learned how to forget. The broken glass washes away the sorrow until there is nothing but calm. You don't have to think about your father and the river. Your best friend, who is gone forever. Or your mother, who has nothing left to give you. Every new scar hardens Charlie's heart just a little more, yet it still hurts so much. It hurts enough to not care anymore, which is sometimes what has to happen before you can find your way back from the edge. A deeply moving portrait of a girl in a world that owes her nothing, and has taken so much, and the journey she undergoes to put herself back together. Kathleen Glasgow's debut is heartbreakingly real and unflinchingly honest. It's a story you won't be able to look away from.
