2016-01-13 This book considers the philosophical, sociological and legal implications of the distinction between

universal human rights accorded to all because of their membership of the human species, and the more particularistic 'citizenship' rights, accorded to those who are members of a political community. Contributions come from a wide range of disciplinary and interdisciplinary fields including education, law and political philosophy, as well as from practitioner perspectives. Contributions address the three themes of firstly whether human rights and citizenship are complementary or competing conceptions, secondly the justifications for human rights, and thirdly human rights and citizenship in different cultural contexts. This book was originally published as a special issue of the Cambridge Journal of Education. 2007-05-15 For fifty years, Andres Yasin has carried a grudge against J.T. Bunker. Now, Bunker, eighty-two years old and dying of cancer, wants to tell his side of a story, a story of his affair with Andres's mother. As a child Andres knew Bunker as the Captain of the Sleepers-so called because he transported the bodies of those who had died off the island, but wished to be buried at home. But what really happened between Bunker and Andres's mother, between his

mother and her next lover, a leader in the Puerto Rican Nationalistic Insurrection, and what were the actual circumstances of Andres's mother's mysterious death? In this taut, erotic novel that slips effortlessly between past and present, remembrance and reality, Mayra Montero describes a feverish Caribbean childhood of secrets, disillusionment, and sexual awakening. Beautifully translated by Edith Grossman, *The Captain of the Sleepers* confirms Montero's stature as one of our finest prose stylists and as an international writer of the first rank. 2007-05-15 Havana, 1957. On the same day that the Mafia capo Umberto Anastasia is assassinated in a barber's chair in New York, a hippopotamus escapes from the Havana zoo and is shot and killed by its pursuers. Assigned to cover the zoo story, Joaquín Porrata, a young Cuban journalist, instead finds himself embroiled in the mysterious connections between the hippo's death and the mobster's when a secretive zookeeper whispers to him that he knows too much. In exchange for a promise to introduce the keeper to his idol, the film star George Raft, now the host of the Capri Casino, Joaquín gets information that ensnares him in an ever-thickening plot of murder, mobsters, and, finally, love. The love story is, of course, another mystery. Told by Yolanda, a beautiful ex-circus performer now working for the famed cabaret San Souci, it interleaves through Joaquín's underworld investigations, eventually revealing a family secret deeper even than Havana's brilliantly evoked enigmas. In *Dancing to Almendra*, Mayra Montero has created an ardent and thrilling tale of innocence lost, of Havana's secret world that is the basis for the clamor of the city, and of the end of a violent era of fantastic characters and extravagant crimes. Based on the true history of a bewitching city and its denizens, *Almendra* is the latest

2002-01-01 The contributions in this volume cover a wide range of theoretical and methodological issues and raise a number of new questions that indicate the future direction of grammaticalization studies. The volume focuses on issues such as grammaticalization and lexicalization; the unidirectionality hypothesis; the issue of the relevance of contexts for grammaticalization; the description of grammaticalization paths. Much of the current work concentrates on such categories, as discourse markers, honorifics or classifiers, which have not previously been central to works on grammaticalization. Other studies take a new perspective on known grammaticalization paths by applying concepts adopted from other linguistic fields, such as prototype theory, morphocentricity, or by discussing their findings from a comparative or typological angle, presenting data from a large number of languages, often based on extensive empirical investigations of written and spoken text corpora.
