2021-04-26 The episode of Guernica, with all that it represents both in the military and the moral order, seems destined to pass into History as a symbol. A symbol of many

things, but chiefly of that capacity for falsehood possessed by the new Machiavellism which threatens destruction to all the ethical hypotheses of civilization. A clear example of the use which can be made of untruth to degrade the minds of those whom one wishes to convince.(Foreign Wings over the Basque Country, 1937)Just after 4 p.m. aeroplanes threw nine bombs in the centre of the town. We were looking after the wounded when more aeroplanes appeared, which began to drop all kinds of bombs, incendiary and explosive. The wild beasts who piloted those aeroplanes, whenever they saw in the streets or outside the town a human figure, turned their machine-guns on it, sowing terror and death and killing not a few, among whom were women children, and old people. Such was the tragedy of Guernica, the truth of which I, Mayor of Guernica, affirm be-fore the whole world.Guernica has been burnt, but Guernica will not die. The tree will put out new green leaves every spring; her sons will return to her once more; once more her houses will be rebuilt, her churches hear again their hymns and prayers, and happy life abound in her streets. Guernica, the symbol of our national liberties, and the symbol too of the ferocity of international Fascism, cannot die for Euzkadi will not die.(Jose Labauria, Mayor of Gernika) The episode of Guernica with all that it represents both in the military and the moral order seems destined to pass into History as a symbol

2010-07-01 This is the current official army U.S. Army Field Manual, unchanged since this edition completed 7th May 2007. Field manual (FM) 3-04.203 presents information to plan and conduct common aviation tasks for fixed- and rotary-wing flight. However, it has become more inclusive and its scope broadened to reduce the number of manuals used by Army crewmembers for reference. One of the underlying premises of Army aviation is if crewmembers understand 'why' they will be better prepared to 'do' when confronted with the unexpected. FM 3-04.203 endeavors to ensure that crewmembers understand the basic physics of flight, and the dynamics

associated with fixed- and rotary-wing aircraft. A comprehensive understanding of these principles will better prepare a crew member for flight, transition training, and tactical flight operations.
