1992-02-01 Guidelines for the clinical practice of medicine have been proposed as the solution to the whole range of current health care problems. This new book presents the first balanced and highly practical view of guidelines—their strengths, their limitations, and how they can be used most effectively to benefit health care. The volume offers: Recommendations and a proposed framework for strengthening development and use of guidelines. Numerous examples of guidelines. A ready-to-use instrument for assessing the soundness of guidelines. Six case studies exploring issues involved when practitioners

use guidelines on a daily basis. With a real-world outlook, the volume reviews efforts by agencies and organizations to disseminate guidelines and examines how well guidelines are functioning—exploring issues such as patient information, liability, costs, computerization, and the adaptation of national guidelines to local needs. 2011-01-01 New edition of the Narrative Exposure Therapy manual, an effective, short-term, culturally universal intervention for trauma victims - including the latest insights and new treatments for dissociation and social pain. Narrative Exposure Therapy (NET) is a successful and culturally universal intervention for the treatment of survivors of multiple and severe traumatic events, such as organized violence, torture, war, rape, and childhood abuse. Field tests in contexts of ongoing adversity and disaster areas, as well as controlled trials in various countries, have shown that three to six sessions can be

sufficient to provide considerable relief. The new edition of the clearly structured and easy-to-follow NET manual now includes the latest insights and new treatments for dissociation and social pain. The first part of the book describes the theoretical background. The second part shows how to use the NET approach step by step, with practical advice and tools, including how to deal with special issues (such as dealing with challenging moments, defense mechanisms for the therapist, and ethical issues). Appendices include an informed consent form, checklists for the therapist, and FAQs. This practical manual describes a successful short term treatment for traumatic stress and PTSD called Narrative Exposure Therapy NET

2001 For instructors who prefer less coverage of micro topics than is offered in Mankiw's highly acclaimed textbook

Principles of Macroeconomics, Mankiw now provides an excellent resource in this briefer version. Mankiw's principles texts have received such praise as perhaps the best ever coverage in economic principles. It's no wonder Mankiw's prize project has quickly become one of the most successful books ever to be published in the college marketplace. The author's conversational writing style is superb for presenting the politics and science of economic theories to tomorrow's decision-makers. Because Mankiw wrote it for the students, the book stands out among all other texts by intriguing students to apply an economic way of thinking in their daily lives. 2005 This publication gives an updated review of the quantity of discards in the world's marine fisheries, using information from a broad range of fisheries in all continents. A number of policy issues are discussed including a 'no discards' approach to fisheries management, the need for balance between bycatch reduction and bycatch utilisation initiatives, and concerns arising from incidental catches of marine mammals, birds and reptiles. The report also highlights the need for more robust methods of estimating discards, and the development of bycatch management plans.
