2022-03-08 Women and Pilgrimage presents scholarly essays that address the lacunae in the literature on this topic. The content includes well-trodden domains of pilgrimage scholarship like sacred sites and holy places. In addition, the book addresses some of the less-well-known dimensions of pilgrimage, such as the performances that take place along pilgrims' paths; the ephemeral nature of identifying as a pilgrim, and the economic, social and cultural dimensions of migratory travel. Most importantly, the book's feminist lens encourages readers to consider questions of authenticity, essentialism, and even what is

means to be a woman pilgrim. The volume's six sections are entitled: Questions of Authenticity; Performances and Celebratory Reclamations; Walking Out: Women Forging Their Own Paths; Women Saints: Their Influence and Their Power; Sacred Sites: Their Lineages and Their Uses; and Different Migratory Paths. Each section will enrich readers' knowledge of the experiences of pilgrim women. The book will be of interest to scholars of pilgrimage studies in general as well as those interested in women, travel, tourism, and the variety of religious experiences. 2021-01-07 Global movement is commonly characterized as one of the quintessential experiences of our age. Market forces, territorial conflicts and environmental changes uproot an increasing number of people, while mass communication, travel, tourism, and a global market of commodities, texts, tastes, fashions and ideologies place individuals more than ever in a global arena. As traditional conceptions of individuals as members of stationary, fixed and separate societies and cultures no longer convince, to what extent does movement become central to individuals' self-conceptions? How do people cultivate, negotiate, nurture and maintain an identity? To what extent do

individuals become 'migrants of identity' whose home is movement? Defining 'home' as 'where one best knows oneself', this pioneering book explores the various ways in which people perceive themselves to be 'at home' in today's world. Through a series of case studies, authors show that for a world of travellers, labour migrants, exiles and commuters, 'home' comes to be found in behavioural routines and techniques, in styles of dress and address, in memories, myths and stories, in jokes and opinions. In short, people who live their lives in movement make sense of their lives as movement. To what extent do individuals become migrants of identity whose home is movement? Defining home as where one best knows oneself this pioneering book explores the various ways in which people perceive themselves to be at home

1997-10-02 Our Lady of the Exile is a study of Cuban-American popular Catholicism, focusing on the shrine of Our Lady Charity in Miami. Drawing on a wide range of sources and using both historical and ethnographic methods, the book examines the religious life of the Cuban exiles who visit the shrine. Those pilgrims are diverse, and so are the motives that bring them. At the same time, author Thomas A. Tweed argues, Cuban devotees of

the national patroness share a great deal. Most come to pray for their homeland and to recreate bonds with other Cubans, on the island and in the diaspora. The shrine is a place where they come to make sense of themselves as an exiled people. The religious symbols there link the past and present and bridge the homeland and the new land. Through rituals and artifacts at the shrine, Tweed suggests, the Cuban diaspora imaginatively constructs its collective identity and transports itself to the Cuba of memory and desire. While the book focuses on Cuban exiles in Miami, it moves beyond case study as it explores larger issues concerning religion, identity, and place. How do migrants relate to their homeland? How do they understand themselves after they have been displaced? What role does religion play among these diasporic groups? Building on this study of one exiled group, Tweed proposes a theory of diasporic religion that promises to illuminate the experiences of other groups that have been displaced from their native land. As the first book-length analysis of Cuban-American Catholicism, Tweed's book will be an invaluable resource to scholars and students of not only Religious Studies, American Studies, and Ethnic Studies, but also those who study cultural anthropology, human geography, and Latin American history. While the book focuses on Cuban exiles in Miami it moves beyond case study as it explores larger issues concerning religion identity and place How do migrants relate to their homeland

1995 The records of miracles in the Middle Ages are among the most unexploited documents of medieval popular Christianity. This book, based on over 3000 posthumous miracles (the wonders attributed to saints after their deaths), pieces together an account of the extent to which the world of pilgrims, miracles, and faith-healing exerted its hold over the medieval imagination. The book is rich in stories of crippled limbs crackling as they straightened during a miracle possessed people on the rampage the screams and groans preceding the moment when blind people could see again
