1993 By comparing Spanish artist Joan Miro's finished paintings and sculptures with more than 1200 of his sketches and preparatory studies, Gimferrer places Miro's art in a surprising new perspective. Marvelously illustrated with 285 radiant color plates and 1276 in black-and-white, this

intensive analysis of Miro's creative process explains how he would first isolate some element from the teeming outside world, then incorporate a graphic sign into it, thus setting in motion a transfigurative process in which objects, signs and symbols underwent a constant metamorphosis. In placing Miro's preliminary drawings alongside the pictures to which they gave rise, Spanish poet and art critic Gimferrer illuminates the inner alchemy by which Miro discovered his major motifs and set them loose in a free-floating pictorial universe. 2016 In June 1966, photographer John Loengard was asked by Life magazine to photograph Georgia O'Keeffe in New Mexico, where she had been living since the late 1930s. Georgia O'Keeffe was 79 years old at the time, Loengard was 32, and for three days he observed and photographed the private life of this pioneer artist who virtually redefined American painting. For this unique book, we selected almost fifty of the finest black-and-white pictures Loengard took of the grand, solitary woman in the desert, and juxtaposed them with selected paintings of hers. They record the course of a day in the

life of Georgia O'Keeffe from sunrise to sunset, developing their own quiet, mysterious effect. It becomes clear how much the austere poetry of the landscape corresponded to the artist's own self-created world and how her artistic imagination was kindled by bleached bones and an infinite desert. Now available as a reduced size reprint. 2002-03-11 Francisco Goya y Lucientes (1746-1828) created magnificent paintings, tapestry designs, prints, and drawings over the course of his long and productive career. Women frequently appeared as the subjects of Goya's works, from his brilliantly painted cartoons for the Royal Tapestry Factory to his stunning portraits of some of the most powerful women in Madrid. This groundbreaking book is the first to examine the representations of women within Goya's multifaceted art, and in so doing, it sheds new light on the evolution of his artistic creativity as well as on the roles assumed by women in late eighteenth- and early nineteenth-century Spain. Many of Goya's most famous works are featured and explicated in this beautifully designed and produced book. The artist's famous tapestry cartoons are included, along with the tapestries woven after them for the royal palaces of the Prado and the Escorial. Goya's

infamous Naked Maja and Clothed Maja are also highlighted, with a discussion on whether these works were painted at the same time and how they might have originally hung in relation to one another. Focus is also placed on Goya's more experimental prints and drawings, in which the artist depicted women alternatively as targets of satire, of sympathy, or of admiration. Essays by eminent authorities provide a historical and cultural context for Goya's work, including a discussion on the significance of fashion and dress during the period. The resultant volume is surely to be treasured by all who admire Goya's art and by those who are interested in women's issues of his time. 2017-07-05 Greek-born Italian painter Giorgio De Chirico (1888-1978) was hugely influential in the early years of the Surrealist movement. His paintings during the teens in Paris, where he moved in 1911, caused such a stir that such important figures as Picasso and Paul Eluard immediately praised them. This phase of his work, which he later termed *pittura metafisica* (metaphysical painting) was marked by dramatic compositions involving sharp perspective, striking shadows, geometrical planes, voids of space, and a general feeling of anxiety and loneliness; the sense of absurdity evoked by the mannequin-like figures in almost nightmarish landscapes seemed to suggest a Freudian expression of the unconscious. After 1930, De Chirico turned to a more classical style of painting and continued in the same vein for the rest of his career; his later work was widely criticized, especially by the Surrealists who had so admired his early paintings. With his *Pittura Metafisica* Greek born Italian painter Giorgio de Chirico was a highly influential figure in the 20th century avant garde

2015-01-06 *Painting in Latin America, 1550-1820: From Conquest to Independence* surveys the diverse styles, subjects, and iconography of painting in Latin America between the 16th and 19th centuries. While European art forms were widely

disseminated, copied, and adapted throughout Latin America, colonial painting is not a derivative extension of Europe. The ongoing debate over what to call it--mestizo, hybrid, creole, indo-hispanic, tequitqui--testifies to a fundamental yet unresolved question of identity. Comparing and contrasting the Viceroyalties of New Spain, with its center in modern-day Mexico, and Peru, the authors explore the very different ways the two regions responded to the influence of the Europeans and their art. A wide range of art and artists are considered, some for the first time. Rich with new photography and primary research, this book delivers a wealth of new insight into the history of images and the history of art. This book is the first survey of painting in Latin America from the Spanish conquest to independence
