2019-01-11 Chess is 99% tactics. If this celebrated observation is true for the master, how much more so for beginners and casual players! If you want to win more games, nothing works better than training combinations. There are two types of books on tactics, those that introduce the concepts followed by some examples, and workbooks that contain numerous exercises. Chess masters and trainers Franco Masetti and Roberto Messa have done both: they explain the basic tactical ideas AND provide an enormous amount of exercises for each

different theme. Masetti and Messa have created a great first tactics book. It teaches you how to: ~ identify weak spots in the position of your opponent ~ recognize patterns of combinations ~ visualize tricks. 1001 Chess Exercises for Beginners can also be used as a course text book, because only the most didactically productive exercises have been used. 2012-01-02 How do you get away with the murder of 11 million people? The answer is simple—and disturbing. You lie to them. Learn how you can become an informed, passionate citizen who demands honesty and integrity from your leaders. In this nonpartisan New York Times bestselling book, Andy Andrews emphasizes that seeking and discerning the truth is of critical importance, and that believing lies is the most dangerous thing you can do. You'll be challenged to become a more careful student of the past, seeking accurate, factual accounts of events that illuminate choices our world faces now. By considering how the Nazi German regime was able to carry out over eleven million institutional killings between 1933 and 1945, Andrews advocates for an informed population that demands honesty and integrity from its leaders and from each other. This short, thought-

provoking book poses questions like: What happens to a society in which truth is absent? How are we supposed to tell the difference between the “good guys and the “bad guys”? How does the answer to this question affect our country, families, faith, and values? Does it matter that millions of ordinary citizens aren't participating in the decisions that shape the future of our country? Which is more dangerous: politicians with ill intent, or the too-trusting population that allows such people to lead them? This is a wake-up call: we must become informed, passionate citizens or suffer the consequences of our own ignorance and apathy. We can no longer measure a leader's worth by the yardsticks provided by the left or the right. Instead, we must use an unchanging standard: the pure, unvarnished truth. This is a wake up call we must become informed passionate citizens or suffer the consequences of our own ignorance and apathy We can no longer measure a leader s worth by the yardsticks provided by the left or the right

2015-04-20 WHO estimates that up to half a million new cases of multidrug-resistant tuberculosis (MDR-TB) occur worldwide, each year. Current treatment regimens for MDR-TB present many challenges: treatment lasts 20 months or more, requiring daily administration of drugs that are more toxic, less effective, and far more expensive than those used to treat drug-susceptible TB. Globally, less than half

of all patients who start MDR-TB therapy are treated successfully. For the first time in over 40 years, a new TB drug with a novel mechanism of action - bedaquiline- is available, and was granted accelerated approval by the United States Food and Drug Administration in December 2012. There is considerable interest in the potential of this drug to treat MDR-TB. However, information about this new drug remains limited. It has only been through two Phase IIb trials for safety and efficacy. The World Health Organization (WHO) is therefore issuing interim policy guidance. This interim guidance provides advice on the inclusion of bedaquiline in the combination therapy of MDR-TB in accordance with the existing WHO Guidelines for the Programmatic Management of Drug-resistant TB (2011 Update). It has only been through two Phase IIb trials for safety and efficacy The World Health Organization WHO is therefore issuing interim policy guidance

2020-10-05 LaRee has spent her life educating from a young girl teaching a primary class through teaching her 7 children at home as well as teaching classes on herbs, oils, homeopathy, and more. Thisbook is her memoir. This book is my memoir- a memoir that for several years now, I have known I would write one day. But let's set the record straight right here. Part, but only part, of the impetus for writing my memoir at this time, is the publishing of our daughter's book, Educated. I want to tell the story of my life as I really lived it and not in the dramatically fictionalized way others, based on my daughter's book, are telling it for me. I want my grandchildren to know who their grandmother is and was, I want to be a force for good in their lives. Also, I feel a compelling desire to shine a light on homeschooling, herbal medicine, and the

living og a conservative and Christian way of life. Thisbook is her memoir This book is my memoir a memoir that for several years now I have known I would write one day But lets set the record straight right here

2013-03-19 This account of the renowned composer's neglected wife—including her years in a Soviet prison—is “a story both riveting and wrenching” (Kirkus Reviews, starred review). Serge Prokofiev was one of the twentieth century's most brilliant composers yet is an enigma to historians and his fans. Why did he leave the West and move to the Soviet Union despite Stalin's crimes? Why did his astonishing creativity in the 1930s soon dissolve into a far less inspiring output in his later years? The answers can finally be revealed, thanks to Simon Morrison's unique and unfettered access to the family's voluminous papers and his ability to reconstruct the tragic, riveting life of the composer's wife, Lina. Morrison's portrait of the marriage of Lina and Serge Prokofiev is the story of a remarkable woman who fought for survival in the face of unbearable

betrayal and despair and of the irresistibly talented but heartlessly self-absorbed musician she married. Born to a Spanish father and Russian mother in Madrid at the end of the nineteenth century and raised in Brooklyn, Lina fell in love with a rising-star composer—and defied convention to be with him, courting public censure. She devoted her life to Serge and art, training to be an operatic soprano and following her brilliant husband to Stalin’s Russia. Just as Serge found initial acclaim—before becoming constricted by the harsh doctrine of socialist-realist music—Lina was at first accepted and later scorned, ending her singing career. Serge abandoned her and took up with another woman. Finally, Lina was arrested and shipped off to the gulag in 1948. She would be held in captivity for eight awful years. Meanwhile, Serge found himself the tool of an evil regime to which he was forced to accommodate himself. The contrast between Lina and Serge is one of strength and perseverance versus utter self-absorption, a remarkable human drama that draws on the forces of art, sacrifice, and the struggle against oppression. Readers will never forget the tragic drama of Lina’s life, and never listen to Serge’s music in quite the same way again. Morrison’s portrait of the marriage of Lina and Serge Prokofiev is the story of a remarkable woman who fought for survival in the face of unbearable betrayal and despair and of the irresistibly talented but heartlessly self-absorbed

2013-07-01 In recent years ever-increasing concerns about ethical dimensions of fieldwork practice have forced anthropologists and other social scientists to radically reconsider the nature, process, and outcomes of fieldwork: what should we be doing, how, for whom, and to what end? In this volume, practitioners from across anthropological disciplines—social and biological anthropology and primatology—come together to question and compare the ethical regulation of fieldwork, what is common to their practices, and what is distinctive to each discipline. Contributors probe a rich variety of contemporary questions: the new, unique problems raised by conducting fieldwork online and via email; the potential dangers of primatological fieldwork for locals, primates, the environment, and the fieldworkers themselves; the problems of studying the military; and the role of ethical clearance for anthropologists involved in international health programs. The distinctive aim of this book is to develop of a transdisciplinary anthropology at the methodological, not theoretical, level.
